

i resent anything which the NAB's petition 94-160 may do to limit what XM radio provides me. i willingly pay for XM radio because XM radio gives me better service than local radio, or TV, without all the ridiculous adverts which are so disruptive and distracting. i have XM radio at home with one unit, and another unit for a car. leave XM radio alone. whenever something good comes along it is always in spite of the government, instead of because of. our taxes seem to generate and pay for the FCC, which wants to stand in the way of anything good. i hope that this is not just another waste of saliva. bravo XM radio. again, leave it alone!!!
